

Cosmic dust sets complete with illuminator, fiber harness, scale 1:1 drilling template and instructions. These sets use 0,25mm fibers, exceedingly thin and challenging to install, but the effect is breathtaking.

Kits de polvo cósmico con iluminador, mazo de fibras, plantilla de taladrado a escala 1:1 e instrucciones de montaje. Estos kits usan fibras de 0,25mm, muy delgadas y complejas de instalar, pero el efecto es extraordinario.

CODE	PRODUCT	FIBERS	FIBER Ø	LENGTH	ILLUMINATOR
CES303	Cosmic dust kit	1800	0,25mm	2m	AHI**
CES304	Cosmic dust kit	3600	0,25mm	4m	AHI**
CES305	Cosmic dust kit	6000	0,25mm	6m	AHI**

On request we can manufacture these patterns or any other from a drawing or photograph.
